

# WHO WE ARE

**THE INTEGRATED CIVIL ENGINEERS COUNCIL (ICEC)** is an association of Civil Engineering Professionals, registered under Indian Societies Act XXI of 1860, headquartered at Calicut. The ICEC aims for uniting graduated Civil Engineers from all parts of the Indian sub-continent and standardizing the profession of Civil Engineering. It was formed by a group of farsighted Civil Engineers from the state of Kerala in 2021.

ICEC stands at the forefront of a profession that plans, designs, constructs, and operates society's economic and social engine — the built environment — while protecting and restoring the natural environment. With its national network of technical and professional experts active in the Civil Engineering industry, ICEC is capable to be an influential publisher of Civil Engineering content and an authoritative source for codes and standards that protect the public and natural environment.

## VISION

Develop innovative models in the field of Civil Engineering which can be exemplary for the global initiatives.

## MISSION

Modernize the field of Civil Engineering with scientific and artistic development and efficient utilisation of human and natural resources and ensure steady availability of adequately trained professionals in this field, and thereby create a better world.

"The ICEC Students Club is an exclusive organization created by ICEC for students of civil engineering. It serves as a dynamic learning platform aimed at enhancing the capacity of civil engineering students and providing them with valuable experiential learning opportunities. Being a part of this club will distinguish your engineering college from others by enhancing skills, performance, and exposure to applied learning. The club is built upon a grand vision and mission."

#### **VISION STATEMENT**

Our vision is to foster a community of passionate and forward-thinking civil engineering students dedicated to advancing their knowledge, skills, and professional networks. We aim to empower students to become future leaders in the field of civil engineering through innovation, collaboration, and experiential learning."

#### **MISSION STATEMENT**

The mission of the Civil Engineering Student Club is to:

#### **Promote Learning and Skill Development**

Provide a platform for students to gain a deeper understanding of civil engineering concepts, technologies, and best practices through workshops, lectures, and hands-on projects.

#### **Facilitate Networking and Collaboration**

Foster a collaborative environment where students can connect with like-minded peers, faculty, and industry professionals. This will enable them to share knowledge, explore opportunities, and build lasting professional relationships.

#### **Encourage Innovation and Research**

Support students in exploring innovative ideas and conducting research in civil engineering. This will include opportunities to participate in research projects, competitions, and presentations.

#### **Community Engagement and Service**

Encourage students to apply their skills and knowledge for the betterment of the community through outreach programs, service projects, and sustainable engineering solutions.

#### **Real-World Experiences**

Organize site visits, internships, and practical experiences that allow students to bridge the gap between theory and real-world applications, preparing them for successful careers in civil engineering.

#### **Professional Development**

Provide resources and guidance to help students develop their soft skills, prepare for internships and placements, and understand the ethics and professional responsibilities of civil engineers.

#### **Sustainability and Environmental Awareness**

Promote environmentally responsible practices and raise awareness about sustainability in civil engineering projects.

#### **Student Leadership and Governance**

Encourage active student participation and leadership roles within the club, empowering them to take ownership of their learning and growth.

#### **Continuous Improvement**

Regularly assess and improve the club's offerings and activities based on feedback and changing industry needs.

By aligning our activities with this mission, we aim to empower civil engineering students to be well-rounded, innovative, and socially responsible professionals who make a meaningful impact in the world.

By having a clear vision and mission, your Civil Engineering Student Club will be well-equipped to focus on its objectives, attract passionate members, and contribute to the academic and professional development of students in your college.
